

PRINT & APPLY FOR A3 SHEETS

APPLY CODE

Device for printing and applying sheets in A3 format with hot glue.

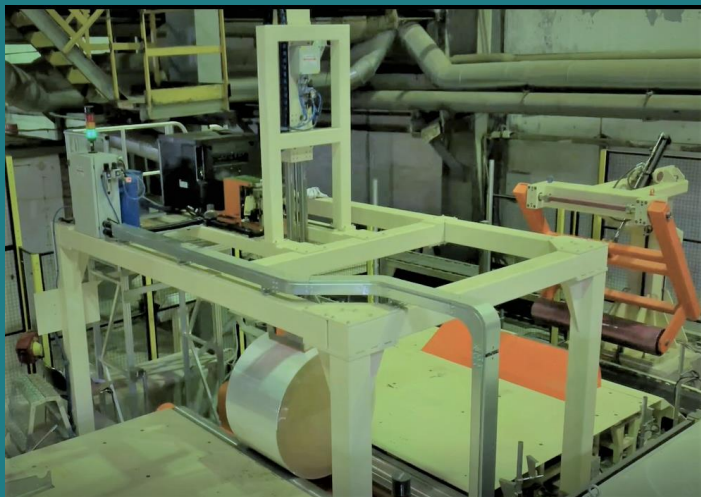

The system, mounted on an iron structure to be integrated with the existing production plant, **is equipped with a laser printer suitable for the real-time application of A3 format sheets.**

At the same time as the sheet is dispensed, **the spray unit, which the system is equipped with, proceeds with the application of the glue.**

The system is completed by a **sheet-collecting trolley** that transports the same to the adhesion area where a pneumatic cylinder equipped with a PAD recovers it to proceed with the application.

A3 sheet Print & Apply System with hot glue spray unit.

Printing group **HP Laser Printer**
