

SEMI AUTOMATIC LABELLING UNITS

DWR 100 – DWR 200

DWR 100

DWR 200

Designed for industrial environments, **DWR is a semi-automatic distributor of self-adhesive labels on a roll**, completely in steel, simple to use, versatile for each type of label normally used, suitable to satisfy the requests of small productions.

Available in two versions: 100 mm and 200 mm width. The detection of the label is done through two sensors which, managed by a microprocessor and working in self-learning, automatically recognize the difference in transparency between the label and the backing paper, presenting it for **manual picking by the operator**.

The control board also allows, at the end of the reel or in the event of a paper break, to stop the rotation of the motor by signalling the anomaly with a sound signal. An electromechanical sensor is case of transparent labels and a pre-set counter are available.

TABLE TOP UNIT for manual dispensing of pre-printed labels placed on reels.

The compactness and ease of use make the dispenser suitable to satisfy the requests of small productions.

Available models

DWR 100

Label width : 15÷100 mm max
Label length : 15-600 mm max
Reel holder : outside reel Ø 280 mm max
inside reel Ø 40 mm
Ø 45-76 mm with adapters
Dispensing speed : 12 m/min.
Power supply : 230 V, 50/60 Hz, 30 W
Dimensions : 330 x 410 x h. 370 mm
Weight : 9,7 Kg.

DWR 200

Label width : 15÷200 mm
Label length : 15-600 mm
Reel holder : outside reel Ø 280 mm max
inside reel Ø 40 mm
Ø 45-76 mm with adapters
Dispensing speed : 12 m/min.
Power supply : 230 V, 50/60 Hz, 30 W
Dimensions : 430 x 410 x h. 370 mm
Weight : 11 Kg.
