

COVER LID LABELLING WITH «FABRIC EFFECT»

APPLY LINE COMPACT TS

Labelling line for the application of a top label on canned vegetables jars with "fabric effect" lid covering system. The peculiarity of this line is given by the spreading of the label which completely covers the jar lid

The system provides two execution areas: **the first one is given by a COMPACT TS labelling head with pneumatic PAD for the upper positioning of the label;** the second area for the final spreading of the label provides a pneumatic device equipped with a width-adjustable adapter unit.

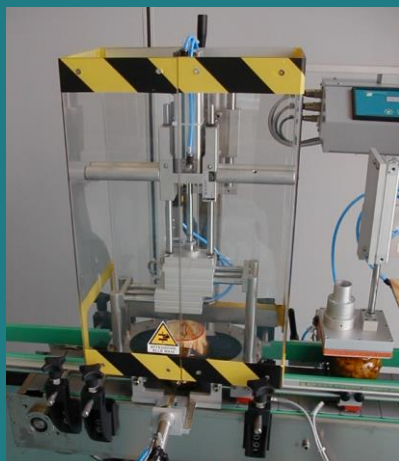

At the end of the labelling cycle, the result obtained is that characteristic of *"home production"* that identifies the producer.

TECHNICAL FEATURES
