

PRINT & APPLY

APPLY LABEL CODE TS/PN

Print and Apply Head complete with cutting unit group and 4" print engine for the preparation of barcode label.

A cutting unit is mounted upstream of the system for the preparation of fiberglass mesh to size which, during the labeling phase, is identified with a label with a bar code.

The line is equipped with a specific scanner for detecting the label presence and for sequential control of the barcode.

**Thermal transfer Print Engines
ZEBRA - SATO - NOVEXX - TSC**

Print and Apply device mounted on a conveyor, complete with 4" printing group and cutting unit for tailor-made product preparation.
